Public Records Requests

Pamela Walker

NOTE: All email, including non-commission email accounts are subject to release as a public record

North Carolina Emergency Management

Record NCEM Operations Center Calls

- NCEM 24-hour Operations Center serves as a single point of contact for local governments to report emergencies and to coordinate local and State response
- NCEM shall record all telephone calls and maintain recordings for at least one year
- System online September 26th, 2014

Review & Approve Emergency Action Plans

Requirement

- Dam owners of a dam classified as a high or intermediate hazard dam must submit a proposed Emergency Action Plan to DENR-Dam Safety & DPS-NCCEM for their review and approval within 90 days of classification.
- DENR-Dam Safety & DPS-NCCEM shall approve the Emergency Action Plan if they determine it complies with the requirements and will protect public health, safety, the environment and natural resources.

§ 143-215.31.(a)(a1)(1)

Review & Approve Emergency Action Plans

Process - Conducted on-line via Emergency Action Plan Tool

1. Dam owner requests access to EAP tool. Requests approved by State Dam Safety Engineer
2. Dam Owner completes EAP (must be updated annually)
3. NC Dam Safety and NCEM are notified via email
4. NC Dam Safety provides technical review & approves EAP. NCEM reviews evacuation plans & emergency actions
5. Once approved, final EAP is stored as PDF. Dam Safety Regional Engineers & local emergency management agencies notified and provided PDF copies

Disseminate Emergency Action Plans

- DPS-NCCEM shall provide copy of the EAP to all local emergency management agencies that might respond to an emergency at the dam
- EM agencies notified via email through the EAP tool
- Leverages existing NCCEM local contacts using the NC State Preparedness & Resource Tracking Application (ie. WebEOC – crisis management software used by State and all NC Counties)
- PDF format available in real-time

§ 143-215.31.(a)(a1)(5)
